

# Instructions To Set Up iFrame

Updated: Aug. 8<sup>th</sup> 2009

How would you like to have the ability to add any website right to your SponsorDaddy opportunity page?

**We've got great news for you!**

You can do this very quickly and easily through a very cool feature called iFraming!

## What is iFraming?

iFraming is a process whereby you can embed any website to your SponsorDaddy opportunity page (opportunity template 1, 2 or 3) through a special HTML code (refer to code below).

## Why would you want to set up iFraming?

iFraming will assist you in growing your main business opportunities, including your SponsorDaddy income!

Here are a few reasons you want to know about iFraming:

- Some companies have tougher compliance policies and don't allow their marketers to create their own opportunity page. With iFrame you can add a corporate business website directly to your SponsorDaddy opportunity page and stay above compliance.
- Some members like to use their own corporate business opportunity sites for various reasons, ie. The site might have tracking features, product pages, feature testimonials, order / sign up links etc... This keeps everything conveniently at one location.
- This feature allows you to entice other networkers to join your SponsorDaddy team by simply showing them THEIR own opportunity site as a sample. Change it for them on the fly in your own back office and show it to them while you talk to them - this is very powerful!
- You can use iFraming in all 3 opportunity templates if you wish and you can combine it with 'prepared' opportunities pages. (ie. you can have a 'SponsorDaddy prepared' opportunity page set up in opportunity template 1 and the other two can be iFramed, or any combination of it). The password for the SponsorDaddy 'prepared opportunity' is **sponsordaddy**.
- If you promote only one business at this time, you may want to show more than one website and maximize all 3 opportunity templates... maybe your company has a product site, or a support site that you would like to display... Simply iFrame the additional websites in the opportunity 2 and/or 3 template.

## iFrame HTML Code:

Copy and paste this code onto a word or notepad document (you can copy and paste it right from this PDF doc):

```
<iframe src="http://www.YOURWEBSITE.com" width="870" height="1300"
frameborder="0"></iframe><br />
```

## Follow these simple steps and set up your iFrame in a matter of a few minutes!

Determine first which opportunity template you would like to iFrame, i.e. opportunity 1, 2 or 3. You can iFrame one opportunity, all three of them or a combination of SponsorDaddy prepared' pages.

**IMPORTANT:** If you would like to use 'prepared' opportunity pages, please set those up first!

You can view and set up your 'prepared' opportunity pages by clicking on "My Opportunity" >> scroll down to "Prepared Opportunities" >> enter the password given to you by your leaders. The password for the SponsorDaddy "Prepared Opportunities" is simply 'sponsordaddy'.

Please be sure that you do NOT assign any opportunity page where you would like to set up an iFramed website (see illustration below).

Use SponsorDaddy2 for

To leave an opportunity page un-assigned, set drop down menu to "Select Opportunity" and save settings by clicking on the "Save" button at the bottom of the page.

Save

**Now you are ready to set up iFraming:**

**Step 1**  
Decide which opportunity template you would like to iFrame, i.e. Opportunity 1, 2 or 3.

**Step 3:**  
Copy and paste iFrame code into this widow and replace <http://www.YOURWEBSITE.com> with your website

The screenshot shows the SponsorDaddy.com backoffice interface. The main window is titled "MY OPPORTUNITY - SponsorDaddy.com" and contains a form for editing an opportunity. A yellow arrow points to the "Opportunity 2" section of the form. An "HTML Source Editor" window is open over the main window, displaying the following iFrame code:

```
<iframe src="http://www.YOURWEBSITE.com" width="870" height="1300" frameborder="0" scrolling="auto"></iframe>
```

Below the code editor are "Update" and "Cancel" buttons. A yellow arrow points to the "HTML" button in the toolbar of the main window. A yellow callout box with the text "Step 2 Click on 'HTML'" points to this button. The main window also shows a "Opportunity 2 URL" field with the value "http://www.mygvbiz.com/seatosky" and a warning message: "Javascript is not allowed for security reasons. If Pasting from Word, be sure to use the 'Paste from Word' button. To go down only one line, hold the Ctrl key when you press Enter. Once you click Save you cannot Undo.Changes during this current session."

Please select which Opportunity you would like to work with:  
[Opportunity 1](#)  
[Opportunity 2](#)  
[Opportunity 3](#)

**Opportunity 2**

Please enter the link you would like for your Opportunity 2 section. **Make sure to include the full url, including http://**

**Opportunity 2 URL:**

Javascript is not allowed for security reasons.  
 If Pasting from Word, be sure to use the "Paste from Word" button.  
 To go down only one line, hold the Ctrl key when you press Enter.  
**Once you click Save you cannot Undo-Changes during this current session.**

My .COM Capture Pages  
 My .NET Capture Pages  
 My CUSTOM Capture Pages  
 My Live Actors  
 My Movies  
 My Opportunity  
 My Profile  
 My Blog  
 My Chat  
 My Photo Gallery

**Decide what website you would like to use in the "CLICK HERE TO VISIT" link (This link will appear on the opportunity page above each opportunity, if you fill it out. it won't show up if you leave it blank)**

**Your website should now show up in this field. If it doesn't, make sure that you did not accidentally change the code and check that your website is spelled correctly.**

**Scroll down and save settings!**

Use Policies

- Zer01 Mobile is the carrier and not a reseller
- Plus: 35 other features like Email, Live Chat and More!

**Save and now you can scroll to the top of the page and click on the opportunity page URL to test it. Make corrections if needed...**

**Once you click Save you cannot Undo-Changes during this current session.**

Undo-Changes    Preview    **Save**    Delete

Repeat this process to set up the other 2 opportunities if you chose to or use it when you have a very a hot networking prospect that you would like to impress by setting up his or her own corporate website! Don't forget to set the iFrame back to your own opportunity web site after you're done with the presentation to the networker. ☺
